

Mott Children's Health Center's

Teen Social Group

Develop social competence and confidence! This social interaction group uses discussion and activities like games, group challenges, and social events in the community to teach and practice “unwritten rules” to social relationships. The group targets the needs of students with Asperger’s Disorder, High Functioning Autism, Non-Verbal Learning Disabilities, Social Anxiety, and other neurosocial disorders.

For: Youth ages 12-16
